

Gap Solutions

A. HARBORWALK TREATMENT
Addresses gaps in the Harbor Walk or on-land paving with stained paved pathway on land. It can also be applied at the street ends along the Embarcadero

B. UNIMPROVED ACCESS
Accounts for areas where access is limited or prohibited due to safety during active fishing operation

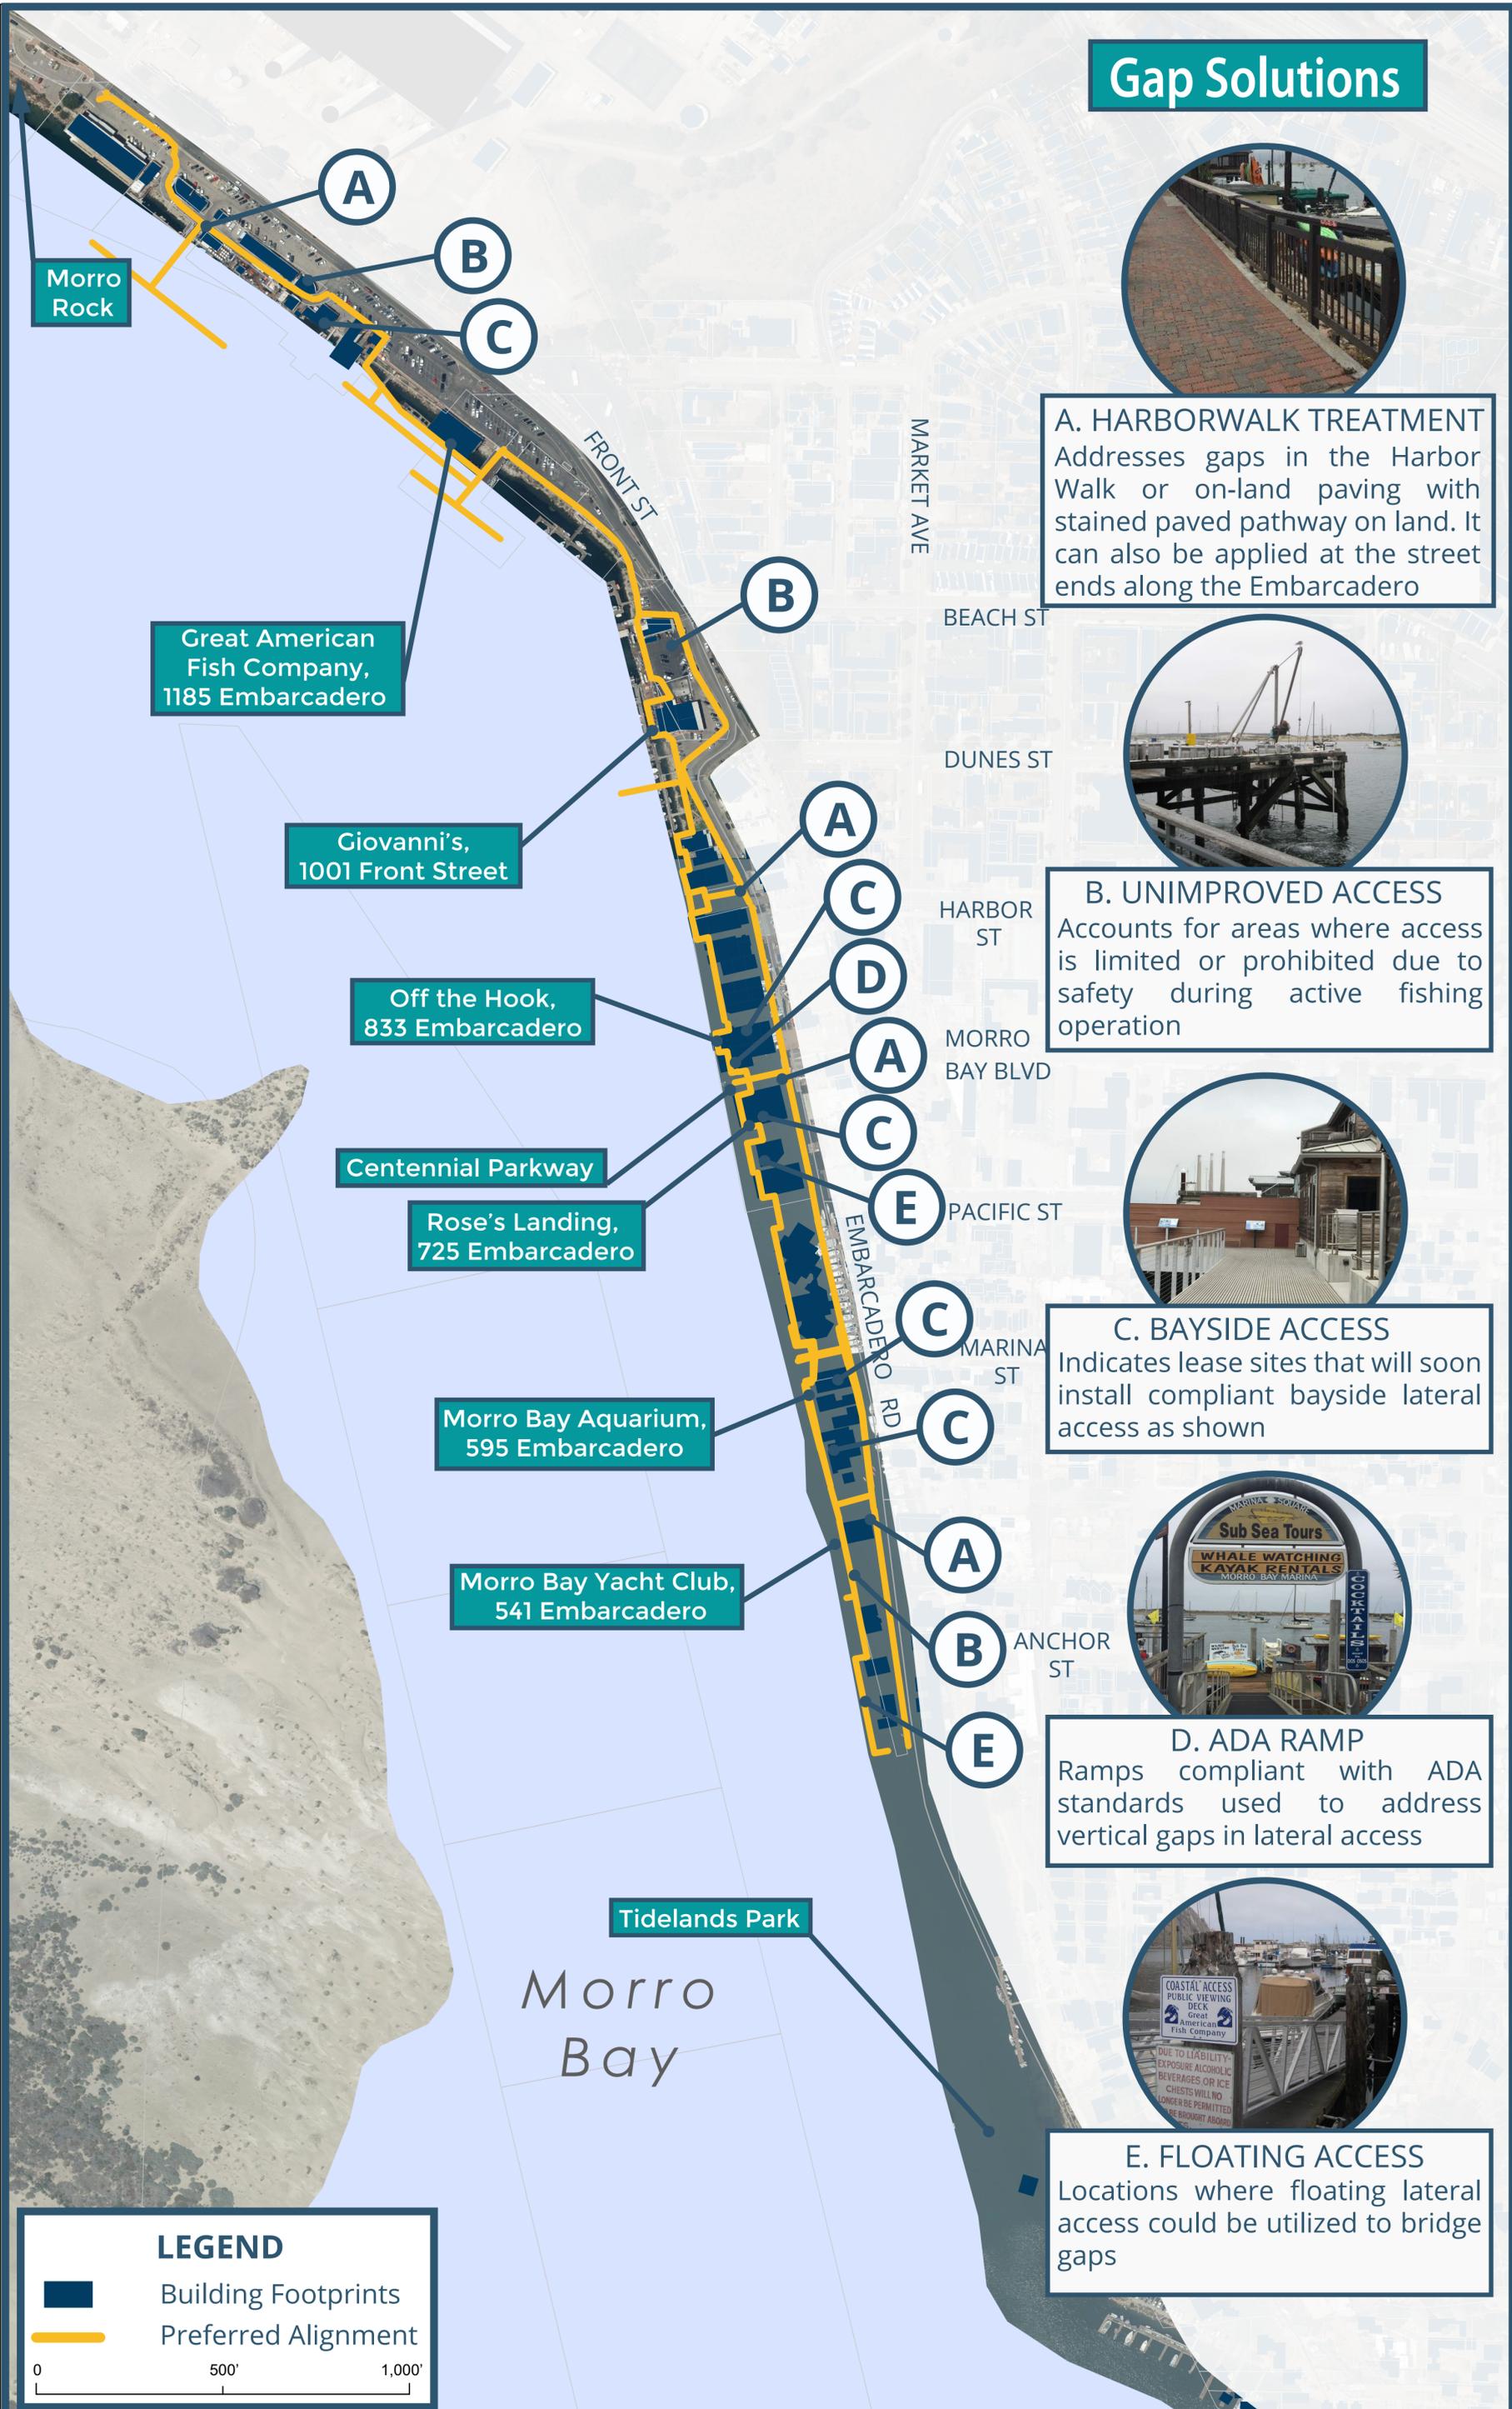

C. BAYSIDE ACCESS
Indicates lease sites that will soon install compliant bayside lateral access as shown

D. ADA RAMP
Ramps compliant with ADA standards used to address vertical gaps in lateral access

E. FLOATING ACCESS
Locations where floating lateral access could be utilized to bridge gaps
