First, let me say, congratulations to the new mayor and city council members! It was time for change. Also I'd like to say that the new directional signs here in town are adorable but I wonder what they cost and why they were needed when most people have navigation systems in their cars etc. Also the sign on Quintana near ASAP, points east to the Frwy for beach access?!?!? I would like to see the city offices open again for regular hours and not closed during lunch. It is time to reopen and people are very upset to find the offices closed most of the time. I'm frustrated by the comments that I have heard Scott Graham say, at least twice, about the process of approval for the BESS project. He stated that there will be many opportunities for public comment while also talking about the master plan for what will be surrounding said project. It's as if he is saying that we can comment all we want.....but it's a done deal. This BESS project is the worst idea I have ever seen in my 34 year residency here in Morro Bay. The safety of the people and animals is at great risk. I am appalled that it is even being considered. I'm hoping for a new direction for our town and leadership that actually cares about what the citizens want! Patti Anderson
