**To:** Council  
**Subject:** 5/23 Budget Study Session #2

RECEIVED  
City of Morro Bay  
MAY 23 2017

City Clerk

The proposed budget includes staffing modifications and a cost of living adjustment which will increase the City's long term financial responsibility for employee salaries and CalPERS obligations. Given the City's longer term structural challenges identified in this budget process, it would be informative to have the budget document include a discussion of the other staffing options considered and why options with shorter term financial impacts ultimately were not pursued. Thank you.

Peggy Mandeville  
Morro Bay resident
