Subject: special city council agenda

Dear City Council:

I am wondering, again, why a special meeting is being held for the 10-year budget forecast rather than schedule it as a regular agenda item during a regular meeting, like this evening. Obviously, this is a topic of great interest to the whole community. It would have fit in with the Second Quarter Budget Report. An afternoon meeting certainly limits residents who work the ability to attend. Public Comment in special meetings is scheduled before the topic has even been presented or questions asked by the city council. For these reasons, I encourage you to not use special meetings except on rare occasions.

Sincerely,
Betty Winholtz
