Morro Bay, CA 93442

### PAVING WORK SCHEDULED FOR MORRO BAY WATER RECLAMATION FACILITY PIPELINES

Jan. 23, 2023

Weather permitting, paving is scheduled to occur on Quintana Road between La Loma and South Bay Boulevard on Wednesday, Jan. 25, as part of the City of Morro Bay Water Reclamation Facility (WRF) Pipelines.

**What To Expect:** Paving and striping work is scheduled to occur on Quintana Road between La Loma and South Bay Boulevard. Please follow all posted signage and construction crew member directions, and please plan extra time when traveling on Quintana Road. Traffic control will be set up and moved with the paving equipment, and flaggers will maintain two-way traffic.

**When:** Paving and striping work is currently scheduled for Quintana Road from 7 a.m. to 5:30 p.m. Additional paving activities will be scheduled in January and February 2023 on Quintana Road, Main Street, Atascadero Road and South Bay Boulevard.

**Why:** The City of Morro Bay is investing in the construction of the WRF Program that will protect our environment, and provide a safe, clean and reliable water supply for our community, both current and future generations. The WRF Program involves replacing the City's existing wastewater treatment plant with an advanced water purification facility that will meet state regulations, protect the environment, and contribute a safe and reliable water source for Morro Bay's homes and businesses. The project will create a drought buffer.

The City is committed to clear communication and providing up-to-date information about construction activities. Please contact [wrfinfo@morrobayca.gov](mailto:wrfinfo@morrobayca.gov) or **877-MORROBAYH2O** with questions about the City's WRF Program, and a team member will get back to you within one business day.
