

CITY OF MORRO BAY  
PUBLIC SERVICES DEPARTMENT  
Water Systems  
Trench Line Repair

---

**NOTICE TO RESIDENTS**

WATER LINE TRENCH PAVING REPAIR:

October 8 - October 31, 2014

7:30am to 4:00pm, Monday - Friday

City crews will be performing water line trench repair operations on streets listed below. At this time, removal of the paving on the failing trench will be replaced with slurry-concrete. Minor paving repairs and sealing will be performed in the near future and additional notices will be posted prior to grinding and paving operations.

Though limited road closures may be required during this phase of the project, they will be brief. Please expect some inconveniences during the course of work and be mindful of crews working in your neighborhood. Also, please do your part to observe all temporary traffic and parking restrictions to help expedite the project and provide a safe work area. EMERGENCY VEHICLE RESPONSE, MAIL DELIVERY and TRASH PICKUP will not be impacted.

If you have any questions or concerns, please contact Jarrod Whelan, [jwhelan@morro-bay.ca.us](mailto:jwhelan@morro-bay.ca.us)
